### Colore e Materia

È il colore, modulato su diversi toni e gradi di intensità la cifra stilistica del rivestimento in pasta bianca Tinte. 13 nuance, dal bianco al nero, passando per il giallo ocra, il rosa antico, la carta da zucchero, il metallizzato e il nuovo Blu: profondo, sofisticato, ultra-contemporaneo.

Il lato lungo del listello si caratterizza per il morbido bisello e per l'accumulo di pigmento, che insieme danno slancio a questo rivestimento mentre le superfici, lucide o matt ne aumentano le possibilità espressive e applicative e rappresentano un costante invito, da guardare e da toccare.

### Colour and matter

Colour, modulated in a series of different shades and degrees of intensity is the style driver in this Tinte white body wall tile collection. 13 shades, ranging from white to black and passing through yellow ochre, antique pink, sugar paper blue, metallic and the new Blue: deep, sophisticated and ultra-contemporary.

The long side of the strip tile stands out for its gentle chamfer and pigment concentration, both of which give this wall tile a dynamic energy while the matt or gloss surfaces increase its expressiveness and application options as well as offering a constant invitation to be looked at and touched.

### Couleur et Matière

C'est la couleur, modulée sur différentes tonalités et degrés d'intensité qui anime cette collection de revêtement mural en pâte blanche. 13 nuances, du blanc au noir, en passant par le jaune ocra, le rose antique, le papier de sucre, le métallisé et un nouveau bleu: profond, sophistiqué, ultra-contemporain.

Le côté long du listel se caractérise par un léger biseau et un intense point d'accumulation de pigment, qui ensemble donne élan à ce revêtement, alors que la surface brillante ou mat en augmente les possibilités expressives et d'innombrables applications, représentant une constante invitation à regarder et à toucher.

**ATTENZIONE COLORI METALLICI:**  
I colori metallizzati sono realizzati con smalti speciali che tendono ad avere un effetto crackle naturale e una bassa resistenza a prodotti acidi ed alcalini.  
Non utilizzare prodotti di pulizia aggressivi, come candeggina, ammoniaca e anticalcare.

**WARNING: TILES WITH METALLIC COLORS:**  
Metallic colors are made with special glazes that tends to have a natural crackle effect and low resistance to acidic and alkaline cleaning products.  
Do not use aggressive cleaning products, such as bleach, ammonia or antilimescale.

## Istruzioni di posa Laying instructions

Istruzioni di posa per piastrelle con variazione cromatica:

Si consiglia di prelevare le piastrelle da più scatole contemporaneamente per garantire una corretta stonalizzazione che esalti la variabilità e la casualità della superficie finita.

Lying instructions for tiles with colour variation:

It is recommended to take tiles from several boxes at a time to ensure proper shade variation that enhances the variability and randomness of the finished surface.

Instructions de pose pour les carreaux avec variation de couleur :

Il est conseillé de prendre les carreaux de plusieurs boîtes en même temps pour assurer une pose correcte qui améliore la variabilité et le caractère aléatoire de la surface une fois la pose terminée.
